

Soul's Pathway Self-Discovery Worksheet

"In your originality is your immortality, for nothing that is original can perish. It is an essential part of the cosmic scheme." Olivia Robertson

Soul's Pathway is a tool to help you recognize your soul – your essence, the spark of energy and originality that is unique to you.

The soul is the energy and individuality of the person. It contains the qualities that allow the person to carry out their mission in life: what the person brings to share with the community to create a better world.

There is an innocent, childlike quality to the soul, and yet all wisdom and self-empowerment is contained within it. Your soul is who you were before you were pressured by others to be someone you aren't.

The Soul's Pathway Worksheet is for anyone at any stage of life. It guides you to take the next step of unfolding your True Self.

Worksheet - questions to help you identify your Soul, and how it is expressed in and supported by community. The Worksheet is free and is available on LFAE's website

Soul's Pathway Sessions – we offer sessions with a Soul's Pathway counselor who is a member of LFAE, to discuss what you discovered about your Soul's Pathway through doing the Worksheet, and to guide you to the next steps of your Soul's development. The session can be done in-person or by phone or Zoom.

Before we get started with the Worksheet...The Life Force Arts Method

Here are some thoughts about what Soul and Spirit mean, from the Life Force Arts Method, a powerful psychological and spiritual tool for building positive relationships from one's inner world to the outer world. The Life Force Arts Method (LFAM) is based on the principle that nurturing the unique gifts of each individual creates a healthy, well-functioning community. It is a model of health rather than pathology, based on principles drawn from both ancient and modern sources. LFAM guides participants from personal healing through spiritual wellness and finally to live an empowered and contributive life. Through knowing and practicing the principles of LFAM, both individuals and communities can be healed and empowered. [Click here for an article on the Life Force Arts Method.](#)

Life Force Arts Ensemble is a company of visual, literary and performing artists who commune with soul and spirit to create transformation through the arts. The Soul's Pathway Consultation is to help you identify what your Transformational Goal is right now, such as healing, personal or professional development, and how the arts can help you achieve that goal.

False Self, Soul & Spirit

False Self is a surface and limited sense of self. It is a false, superficial personality which is based on living according to other people's expectations. A clue to whether a person is operating from a place of ego is if they focus a lot on "should". "Should" is an Ego word: "I should have done that," "They should have done this," "She shouldn't act like that." "Should" statements are about judging from an external perspective, rather than asking the Soul what is true for the person.

Spirit is the Great Cosmic "Soup" of all energy that encompasses all that is. It is the universal place where matter transforms into energy and vice versa, where everything can change form

Soul is in between Ego and Spirit. Soul is

1. your personal energy field
2. your gifts: the talents you bring to the world; the characteristics that are core to who you are
3. your mission: what you came to this lifetime to accomplish

In this Worksheet we do not work so much with exploring the personal energy field, but primarily with identifying your gifts and mission. Knowing your gifts and your mission is the key to discovering your Soul's Pathway

What is living from Soul like?

Joseph Campbell: "Follow your bliss."

*Mihaly Csikszentmihalyi, author of Flow: The Psychology of Optimal Experience, described flow as "being completely involved in an activity for its own sake. The ego falls away. Time flies. Every action, movement, and thought follows inevitably from the previous one, like playing jazz. Your whole being is involved, and you're using your skills to the utmost."*¹

Gabrielle Roth, author of Maps to Ecstasy, says, "Our soul, our true self, is the most mysterious, essential, and magical dimension of our being. In fact, it is not a separate reality, as traditional Western thought views it, but the cohesive force that unites our body, heart, and mind. It is not a ghost trapped somehow in the physical machinery of our body but the very essence of our being...Each soul is unique, and we are called upon to break out of the minimum security prison of conformity and mediocrity to experience our soul's true magic and power...The soul is an artist. Its nature is to create..."

- Knowing what creates that blissful feeling of flow for you, where you feel truly alive, helps you find your soul
- Following your soul gives you more energy, instead of draining your energy
- Being in a community that fully supports the flowering of your soul helps you find and fulfill your gifts and your mission
